DETAILED ACTION

Allowable Subject Matter

Claims 1,3,4 and 6-11 are allowed.

The following is an examiner's statement of reasons for allowance: With regards to independent claim 1, Tsuji (US 6158232) discloses a printed circuit board having a metal substrate with an integrated cooling system comprising a metal substrate with a heat transporting cavity and having an opening at one edge with conduit for transporting a heat carrying fluid to the outside of the metal substrate, Tsuji does not disclose that the conduit for a heat-carrying fluid extends, by way of the opening, to the outside and upward from the metal substrate forming a sealed heat transfer area in an external heat transfer medium, as in the claimed invention. Furthermore there is no evidence in the prior art making the combination obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
